**Investment Goal**

Capital Preservation     
  Income     
  Growth     
  Speculation

**Investment Objective Definitions:** **Capital preservation:** The objective of capital preservation is to protect your initial investment by choosing investments that minimize the potential of any loss of principal. The long-term risk of capital preservation is that the returns may not be adequate to offset inflation. **Income:** The primary objective of an income strategy is to provide current income rather than long-term growth of principal. **Growth:** The objective of a growth strategy is to increase the value of your investment over time with recognizing a high likelihood of volatility. **Speculation:** A speculator's objective is to assume a higher risk of loss in anticipation of potentially higher than average gain by taking advantage of expected price changes.

**Does anyone other than the account holder(s) have trading authorization over the account?**

Yes                       No

If yes, please complete and mail Power of Attorney form to add an individual as having trading authority.
